### Summary

Passionate and detail-oriented MERN Stack Developer with a strong foundation in **MongoDB, Express.js, React.js, Node.js, and JavaScript (ES6+)**. Experienced in building responsive, interactive, and user-friendly web applications through personal and academic projects. Possesses a solid understanding of **component-based architecture, RESTful APIs, and basic state management**. A fast learner and problem-solver eager to contribute to a collaborative development team and grow as a Full-Stack Developer.

### Skills

#### Frontend Development

- JavaScript (ES6+)
- React.js
- React Hooks
- Context API
- HTML5 & CSS3
- Bootstrap
- Tailwind CSS
- Responsive Web Design
- Reusable Components

#### Backend Development

- Node.js
- Express.js
- RESTful APIs
- Authentication & Authorization with JWT

#### Databases

- MongoDB
- MySQL

#### API & Development Tools

- API Integration/Testing
- Postman/Thunder Client

#### Version Control

- Git & GitHub

### Education

#### Intermediation by Commerce,

From Govt. college For Women, Karachi

#### Matriculation by Computer Science,

From Sindh Board of secondary, Karachi

### Courses

#### Advance Diploma in Software Engineering (ADSE)

From Aptech Metro Star Gate

[09/2023 - In Process]

#### Certificate Information Technology

From Global Computer Institute

[2023]

### Projects

#### Bookies 📄, Personal Project

08/2026 – 08/2026

Developed a dynamic e-commerce bookstore where customers can browse and purchase books through an intuitive and responsive interface. Implemented **Add to Cart** and **Checkout** functionality, integrated **MongoDB Atlas** for data management, and added secure **role-based authentication and authorization** using **JWT**. Developed an Admin Dashboard to efficiently manage books, users, and overall store operations.

#### Tech Stack:

React.js, Express.js, MongoDB Atlas, JWT, Tailwind CSS

#### Hotel Management System 📄, Academic

05/2026 – 06/2026

Developed a full-stack **Hotel Management System** using the **MERN Stack (MongoDB, Express.js, React.js, Node.js)** with support for online and walk-in bookings. Implemented **role-based authentication and authorization**, real-time room booking and availability, and dedicated **Admin, Staff, and Guest dashboards**. Built a user-friendly Guest Dashboard for managing reservations and account details, along with efficient booking and room management features.

#### Tech Stack:

React.js, Express.js, MongoDB, JWT, Tailwind CSS
